

# OUT HAS NEVER BEEN MORE IN WITH THE NEW OASIS BY ARCHGOLA™

If you love outdoor living and entertaining, you will love the new Archgola™ Oasis canopy.

Designed to reflect the clean lines of modern New Zealand architecture, with a clear view of the skies above, the new Archgola™ Oasis canopy brings shade, shelter, UV protection and style to your home.

Create your own oasis, where you can sip coffee in the morning, let your kids play after school, and dine alfresco in the evenings.

Providing outdoor shelter to Kiwi families for over 25 years, we are delighted to extend our outdoor shelter collection with the Archgola™ Oasis canopy.

OASIS

# INTRODUCING ARCHGOLA™ OASIS

Archgola™ Oasis was inspired by our clients' desire for a canopy that:

- Allows light to come into the home
- Has clean rectangular lines that blends with the house design
- Includes wide span between posts for excellent indoor-outdoor flow.

Constructed with a combination of pre-galvanised New Zealand steel, zinc cast brackets, high-quality aluminium, premium 5mm polycarbonate sheet and stainless steel fasteners, the Archgola™ Oasis canopy is built to last!

## Trusted installers

Our nationwide team of licensed Archgola™ installers cover the depth and breadth of New Zealand and are on hand to answer any questions. You'll receive a free on-site consultation, measure and quote and, when you're ready to proceed, they'll ensure the installation of your Archgola™ is hassle-free.

## 25 years' experience

Our warranty is proven over the 25 years Archgola™ has been in business, we will stand by our products. We offer a five-year frame, powder coat and installation warranty along with a 25 year light loss and 15 year hail damage roofing warranty. See [archgola.co.nz/warranties-use-care/](https://www.archgola.co.nz/warranties-use-care/) for full details.

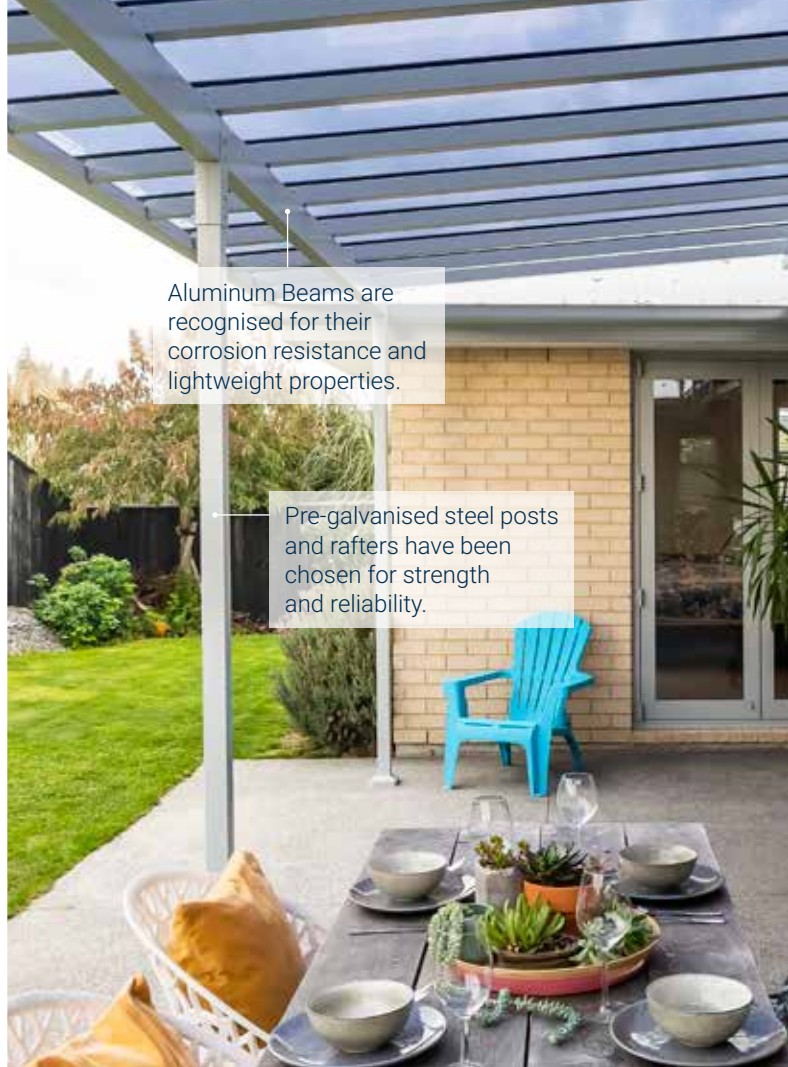

High quality 5mm polycarbonate roofing, available in three tints, Bronze, Blue/Grey and Opal.

Dulux powdercoat colour to match your house.

Blinds can be added, to complete your outdoor space.

Aluminum Beams are recognised for their corrosion resistance and lightweight properties.

Pre-galvanised steel posts and rafters have been chosen for strength and reliability.

# PROVEN QUALITY

## Clear but cool

Oasis canopies are installed with a high-quality 5mm polycarbonate roofing which is 600mm wide and available in three tints, giving you a range of options to choose from.

- Bronze – high visibility, day and night
- Opal – less glare and lower light penetration
- Blue/Grey – high visibility with heat reduction

The roofing sheet is protected by Clariant CESA Light UV and Light Stabilisers, which block 99.9% of UV rays (290-400 nm wavelength), and reduce the damage caused by sunlight and heat, ensuring a long lasting roofing solution.

When measuring impact strength, Oasis polycarbonate sheets are 250 times more resistant than glass and 10 times more than FRP and Acrylic sheets. Like all polycarbonate, the roofing will scratch so care is needed when cleaning.

## Strong but elegant

Designed to withstand New Zealand weather conditions, the Archgola™ Oasis is built with the perfect combination of aluminium, steel and zinc casting.

Zinc cast brackets combine strength, toughness, rigidity, bearing and performance. Zinc provides a high aesthetic level of finishing, further enhanced with Archgola™ two-step power-coating process.

Aluminum beams are recognised for their corrosion resistance and lightweight properties, making them ideal material for our beam design.

Pre-galvanised steel posts and rafters, made with New Zealand Steel, have been chosen for strength and reliability. This is a key element of the Oasis structure, providing strength and corrosion-resistant performance.

## CUSTOM MADE FOR YOU

Every Archgola™ Oasis is custom designed to your unique requirements, spanning large outdoor areas and helping you make the most of your outdoor living space. Choose from a variety of roof tints and a range of 50 Dulux colours for your powder coated frame.

A design focus on quality materials and proven manufacturing processes, results in a stunning finished effect that will be enjoyed and envied by all.

## ALL THE FEATURES YOU'LL LOVE

### Quality Design

The gentle slope of the roofing combined with the unique Archgola™ glazing bars, results in a clear, flat, watertight system that allows you to see the stars while enjoying outdoor living.

### Wide Span

A combination of the strength of our durable materials and engineered design allow for wider spans with fewer posts, allowing you to enjoy the view and fantastic indoor-outdoor flow!

### UV Protection

Style and function meet with the new Archgola™ polycarbonate roofing solution. The Archgola™ Oasis offers a strong, transparent roofing solution, which protects you and your family from 99.9% of damaging harsh UV rays and provides a beautiful space to enjoy.

Archgola™ Oasis canopies are installed with a high-quality 5mm polycarbonate roofing which is 600mm wide and available in three tints; Bronze, Opal and Blue/Grey.

### Protection with Outdoor Blinds

Choose from EziGuide and Ziptrack blinds, in mesh or PVC Clear, to complete your outdoor space.

### Lighting and Heating Options

Lighting and heating can be added to suit your needs.
