Archgola™ Ezi Guide Outdoor Blinds

Archgola™ Ezi Guide Outdoor Blinds are the perfect solution to extend your outdoor area for year-around use. Get protection from wind and rain while retaining the view with clear window blinds or roll out the shade when you need it with our mesh options.

Perfect outdoor blind system

We've kept our outdoor curtains simple – there are no buttons, zips or clips. Instead, two aluminium channels position the blinds perfectly. Once wound down and tensioned gaps are eliminated to prevent unwanted draughts. Our Ezi Guide curtains come with stainless steel fittings and a unique locking system, providing you with quality in both appearance and performance.

Outdoor living all year round

Archgola blinds provide ideal outdoor shade solutions for enclosing terraces, courtyards, patios and verandas to expand your outdoor living or working space.

Fabric options

Choose from either a mesh blind, allowing you to enjoy the view but also enjoy a level of privacy and reduced glare on bright days, or select a clear PVC blind, strengthened by a 90mm polyester weave border.

Mesh is a versatile fabric that offers sun protection while keeping optical visibility. Mesh blocks out UV rays and heat and keeps wind* and rain at a minimum. Available in a full range of designer colours, to coordinate or contrast with your outdoor finishes.

Protection from the elements

Our quality blinds and fittings are designed to withstand New Zealand conditions and come with a two-year warranty for the blinds and gear box. The aluminium channel and powder coating have a five-year warranty.

Fits existing structures

If you have an existing outdoor structure we can retrofit outdoor curtains and blinds to suit your needs.

*Strong Winds – Blinds must not be left down in strong winds.

Pelmets and Draught Stops

Gearbox and Handles

"Delighted with the blinds. Makes a huge difference. We can now open the ranch sliders without a howling gale blowing through the house. They have also cut down the outside noise level"

J Slater | BLENHEIM

Why Archgola™

Proven Quality

We believe quality is the single most important consideration in a canopy.

Our pre-galvanised steel frames, built from high quality New Zealand-sourced steel, are structurally engineered to withstand high wind zones while the Suntuf polycarbonate roofing offers 99.9% UV protection.

Your Choice of Style

Every Archgola™ is unique and designed to your style and specifications, ensuring your Archgola™ suits your home and your lifestyle.

We truly believe one size doesn't fit all and that's because your home and the way you live in it is unique. Our range of roof designs can complement and enhance the way you live in your home and can be adapted to fit your outdoor space. Every Archgola™ is custom designed to your unique requirements, easily going around corners, spanning large outdoor areas and helping you make the most of your outdoor living space. Choose from a variety of roof lines, roof tints and a range of approx. 50 Dulux colours for your powder coated frame.
Year Round Protection

Whether you're seeking shade from New Zealand's harsh UV rays or shelter from the winter wind and rain, Archgola™ provides you with more protection all year round.

Trusted Installers

Our team of licensed Archgola™ installers cover the depth and breadth of New Zealand and are on hand to answer any questions. You'll receive a free on-site consultation, measure and quote and, when you're ready to proceed, they'll ensure the installation of your Archgola™ is hassle-free. Installation is usually completed in just one day.
